

EC Declaration of Conformity

In accordance with the Directive 89/106/EEC of the Council of Ministers dated 21st December, 1988 on the harmonisation of the legal and administrative regulations of the member states on construction products (construction product directive – CPD), revised by the Directive 93/68/EEC of the Council of Ministers dated 22nd July, 1993, it is herewith confirmed that the construction products

Securock Glass-Mat Sheathing Boards

Gypsum board with fibrous reinforcement

Flexural breaking load GM: Reduced water absorption to H2 (< than 10%): Reaction to fire Class A1 pursuant to EN 13501 -1 placed on the market by

USG (U.K.) Ltd
1 Swan Road, South West Industrial Estate
Peterlee, Co. Durham, SR8 2HS,
U.K.

have been subjected to factory production controls by the manufacturer and additional testing according to a fixed test plan and that the recognised testing office

Exova Warringtonfire
Holmesfield Road
Warrington
Cheshire, WA1 2DS
UK

has performed a test of the relevant fire reaction properties of the product (test report number 309471) and that USG performs continuous production controls.

This declaration confirms that all regulations relating to the certification of conformity and the performance features described in Appendix ZA of the standard

EN 15283-1: 2008

have been applied and that the product meets all requirements described therein.

This declaration was issued for the first time on 16th August 2011 and is valid until the assignments in the harmonised technical specification listed above, or the manufacturing conditions in the works, or the factory production controls themselves are changed.
