

FILANOPAINT STAR

WATER-BASED GEL CLEANER FOR WALLS

- TERRACOTTA
- QUARRY TILES
- PORCELAIN TILES
- STONE AND AGGLOMERATES
- GLAZED CERAMIC TILES
- CONCRETE
- PLASTER

WHAT IT'S FOR

- Removes graffiti from treated and untreated walls: it is particularly effective on rough or porous surfaces (cement/plaster walls, bricks, natural stone...).
- Removes FILAWET, FILAWET ECO and FILAPT10 protectors if they have been incorrectly applied or when thorough cleaning is required.
- Viscous consistency: ideal for wall applications.
- Provides in-depth cleaning and degreasing.
- Cleans smog and dust from external walls.
- It removes filming and painting products from terracotta surfaces.

ADVANTAGES

- Easy to use.
- Ready to use: no dilution required.
- Water-based paint remover.
- Rapid and highly efficient.

HOW TO USE IT

No dilution required: to be used undiluted.

Application:

1. Apply the product directly on the wall with a large, flat paintbrush or using the airless method.
2. Leave for at least 5 minutes.
3. Rub using a coarse cloth.
4. Rinse.

For best results, use a water-jet cleaner on vertical surfaces and a single-disc cleaning machine on floors.

Repeat application of the product and the consequent rinsing, if required (for example, on porous surfaces such as bricks, natural stone etc.)

To remove possible residues of film-forming products such as FILAWET, FILAWETECO or FILAPT10 in the event of incorrect application: simply apply the undiluted product directly onto the surface with a brush or spray. After 15 minutes, rub with a brush or floor scrubber and rinse well with water. Repeat the application in the event of obstinate treatments.

COVERAGE

With one litre:

5 m²

"Coverage is approximate"

Packaging

1 litre cans in boxes of 12.

WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.

TEMPERATURES

Storage temperature: from 5° to 30° C.
The product should be applied to materials with temperature between 5° and 30°C.

CONTAINS

5% or over but less than 15% non-ionic surfactants.

LABELLING

Signal words: Danger

Hazard indication:

Causes serious eye damage.

May cause drowsiness or dizziness.

Caution recommendations: If medical advice is needed, have product container or label at hand. Keep out of reach of children. Use only outdoors or in a well-ventilated area. Wear eye protection / face protection. Immediately call a POISON CENTER / doctor. Store in a well-ventilated place. Keep container tightly closed. Dispose of contents / container in accordance with local/regional national/international regulation. Contains: Alcohols C12-14, ethoxylated, PROPYLENE GLYCOL, MONO METHYL ETHER, N-BUTYL ACETATE.

TECHNICAL FEATURES

Appearance: liquid

Colour: yellowish

Odour: pervasive

Density: 1.021 kg/l

pH: 6.1

This information is the result of our most up-to-date technical know-how and is based on ongoing laboratory research and testing. Nevertheless, for reasons beyond our control, any suggestions always require appropriate analysis, testing and monitoring. Fila shall not accept any responsibility for improper use of its products.
