

- PORCELAIN TILES
- NATURAL STONE
- MARBLE
- GLASS
- METAL

WHAT IT'S FOR

- Removes residues of silicone, glue, adhesive tape, old labels and polyurethane foam.
- Also effective for removing candle wax, resin and greasy/oily stains in general.
- It is quick and handy to apply with the included spatula.

ADVANTAGES

- Can also be used on marble, stone, grouting joints and other absorbent materials to remove surface residues.
- Gel-like consistency: acts directly on the residue you want to remove, thus optimising its effect and avoiding wastage.
- Quick acting: it dissolves hardened silicone in 20 minutes.
- Ideal for low-absorption ceramic surfaces (porcelain, textured single-fired tiles).
- Has a pleasant citrus aroma.

HOW TO USE IT

No dilution required: ready to use.

Application:

1. If the residue is particularly stubborn, remove as much as you can with a sharp-edged tool (box cutter, knife or other blade) taking care not to damage the surface.
2. Shake before use, then apply the product undiluted, so as to cover any silicone residue.
3. Leave to act for about 20 minutes.
4. Once the indicated time has elapsed, use the included spatula to scrape off the dissolved residue, then remove it with a cloth or kitchen towel.
5. If necessary, repeat the application and leave it to act for longer.
6. Clean the spatula thoroughly after use with a cloth or kitchen towel.

Caution:

The product may dull methacrylate, plastic and coated surfaces and resin-based agglomerates, it should first be tested on these surfaces to verify their resistance. If the affected surface was treated with wax, the coating must be renewed.

Packaging

250 ml can: 12 pc carton.

WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.

TEMPERATURES

Storage temperature: from 0° to 30°C.
The product should be applied to materials with temperature between 5° and 30°C.

CONTAINS

Perfumes, limonene.
D LIMONENE 1-methoxypropan-2-ol.

LABELLING

Signal words: Danger

Hazard indication:

May be fatal if swallowed and enters airways. Irritates the skin. May provoke skin allergy. May cause drowsiness or dizziness. Highly toxic for aquatic life with long lasting effects. Caution recommendations: If medical advice is needed, have product container or label at hand. IN CASE OF INGESTION: immediately contact an ANTI-POISON CENTRE or doctor. Contains: D LIMONENE, PROPYLENE GLYCOL MONO METHYL ETHER.

TECHNICAL FEATURES

Appearance: viscous liquid

Colour: transparent

Odour: citrus

Flash point: T ≥ 23°C.

Relative density: 0.880 kg/l
